Dear Patient,

California law allows you to designate your personal physician as the physician you wish to treat you in the event of a work-related injury. However, unless this is designated BEFORE you are injured, your employer (or their insurance carrier) can require you to see a provider of their choosing. To be able to establish your right to see your personal physician, your employer MUST be notified in writing, PRIOR TO AN INJURY, that you have a personal physician whom you would want to see in the event of an injury. If you wish me to be able to treat you in the event of a work-related illness or injury, please fill out the form below. You should then have your employer sign it. I also recommend you make two copies, one for yourself and one for your medical chart. If you have any questions, please do not hesitate to contact me.

EMPLOYEE'S DESIGNATION OF PERSONAL PHYSICIAN
